This includes developing good practice models of decentralised planning, service delivery, budgeting and accountability at community levels that can be offered as policy options for government and CSOs' stakeholders.

Objectives (con't)

- To promote and sustain CSOs through effective grants management for community advocacy, capacity building and strengthening the development initiatives.

WHY WE EXIST? – TO BRIDGE THE IDENTIFIED GAPS!

- Previous initiatives were limited in scope (thematic focus, geographical spread, limited time).
- Limited co-ordination between initiatives (CSO's and Support Partners).
- Limited involvement/participation of CSOs in the design of capacity building programmes.
- Limited access to resources (funding) by CSOs {lack of ability to retain competent people}.
- Sustaining the Spirit of Voluntarism

WHAT IS A CIVIL SOCIETY?

"The range of institutions and organizations that connect people to government and the private sector. This includes faith-based, community-based and non-governmental organizations. Civil society when strong, autonomous of but engaged with government, and truly representative of the people, has the potential to play an instrumental role in improving governance".
