“Microfinance and street children”
**Is microfinance an appropriate tool to address
the street children issue?**

Supervisor : Pr. Daniel Traça

Assessor : Pr. Marc Labie

Assessor : Pr. Christian Platteau

Jury : Economy

Academic year 2005-2006

SOLVAY BUSINESS SCHOOL

ACKNOWLEDGEMENTS

I would like, first, to thank sincerely Mister Daniel Traça, professor of economics and titular of the Marie & Alain Philippson Chair in "Managing for Sustainable Development" at the Solvay Business School, for having accepted to supervise this thesis. His constant support and precious expertise have been an extraordinary source of learning for me.

I also thank Pr. Marc Labie, expert in microfinance from the Warocqué School of Economics and Business in Mons-Hainaut, and Pr. Christian Platteau, psychologist and expert in development from the Free University of Brussels and at the head of Proman Consulting, for their constant support and help.

This thesis would have been nothing without the help of Padakhep Manabik Unnayan Kendra (PMUK), a Bangladeshi microfinance institution which made me discover the world of street children and microfinance. My gratitude goes particularly to Iqbal Ahmmed, the Executive director, as well as all the staff of the Child development section of the organisation, especially Prity Islam and Farhana Afroz, who supported me everyday. I also will never be able to thank enough the "street children" of Padakhep: you helped me, with your smiles and your tolerance, to complete my field research.

I thank sincerely Meindert Scharp, international expert on street children, for having reviewed and corrected the first part of our paper. I also express my gratitude to Stuart Rutherford and Nipun Sangma, from SafeSave, Mohamed Emrul Hassan from PLAN International, Dr. Imran Matin from BRAC, and Lauren Johnson from the World Bank (CGAP) for having supported me with their numerous advice; and Sophiane Belmiloud, from Ernst & Young Paris, for having reviewed and corrected this thesis.

Finally, I would like to thank the persons without whom this thesis and the 5 years of my Master would never have been completed: first and foremost my mother and father, who gave me everything; my sisters and my brothers who took care at me at every step; and all my friends.

I thank you for giving me patience, help and love.

TABLE OF CONTENTS

PRELIMINARY CHAPTER

INTRODUCTION AND METHODOLOGY	1
------------------------------------	---

CHAPTER 1 : THE STREET CHILDREN ISSUE

RESEARCH QUESTION - "WHAT DO WE KNOW ABOUT STREET CHILDREN?"

1. DEFINING STREET CHILDREN	6
2. CHARACTERISTICS.....	8
2.1. About their family.....	8
2.2. About their gender.....	9
2.3. About their economic activities.....	9
2.4. About their vulnerability.....	10
2.5. About their capacities.....	11
3. CAUSES OF THE STREET CHILDREN ISSUE	12
4. CONSEQUENCES, OR WHY IT MERITS OUR ATTENTION?	13
5. SOME IDEOLOGICAL ISSUES: CAN (STREET) CHILDREN WORK?	15
5.1. Child labour and child work: definitions.....	15
5.2. Ideological considerations.....	16

CHAPTER 2: DEMAND ANALYSIS

RESEARCH QUESTION - "WHY DO STREET CHILDREN NEED FINANCIAL SERVICES?"

1. CONTEXT.....	20
1.1. Bangladesh in brief.....	20
1.2. Street children in Bangladesh.....	20
2. OBJECTIVES.....	20
3. METHODOLOGY	21
4. DATA ANALYSIS.....	22
4.1. Entering their financial world: the first steps.....	22
4.2. Street children economic activities.....	25
4.3. Why do street children need savings?	27
4.3.1. The street life insecurity.....	27
4.3.2. Life-cycle needs:	30
4.3.3. Emergencies	33
4.3.4. Opportunities	34
4.4. Why do street children need credit?.....	35
4.4.1. For their income generating activities.....	35
4.4.2. For their families' income generating activities.....	36
4.4.3. For their future.....	36
4.4.4. "We do not need credit"	37

CHAPTER 3: DEMAND VS. SUPPLY

RESEARCH QUESTION - "HOW BEST TO MATCH MICROFINANCE WITH STREET CHILDREN? "

1. MICROFINANCE: A WAY TO SUPPLY FINANCIAL SERVICES TO POOR PEOPLE	39
1.1. Products: credit, savings and insurance nexus.....	39
1.2. Mechanisms.....	41
1.2.1. Group lending.....	41
1.2.2. Dynamic incentives.....	43
1.2.3. Frequent repayment schemes.....	44
1.2.4. Collateral substitutes.....	44

2. HOW BEST TO MATCH MICROFINANCE WITH STREET CHILDREN?	45
2.1. Prevalence of microfinance for street children	45
2.1.1. Introduction.....	45
2.1.2. Why do MFIs and YSOs avoid street children?	47
2.1.3. Case studies	49
2.2. Effectiveness and sustainability: the trade-off.....	55
2.2.1. Effectiveness	55
2.2.2. Sustainability.....	56
2.3. How best to match microfinance with street children?	57
2.3.1. Financial services.....	57
2.3.2. Supporting services: the need for vocational training	65
2.3.3. Operational requirement: social services	68
2.3.4. A comprehensive microfinance plus framework.....	68
2.3.5. Effectiveness, sustainability and provision model.....	70
2.4. Case study: Padakhep Manabik Unnayan Kendra (PMUK)	73
2.4.1. Program Profile.....	74
2.4.2. Program Effectiveness.....	89
2.4.3. Program sustainability.....	109
2.4.4. A cross-cutting issue: Outreach vs. Effectiveness vs. Sustainability	112
2.4.5. Some recommendations	113
FINAL WORDS: CONCLUSION AND FUTURE PERSPECTIVES.....	115
