Devolved Natural Resource Management
as a Means of Empowering the Poor:
Rhetoric or Reality?
Tom Campbell 117

Independent Forest Monitoring:
Improving Forest Governance and Tackling
Illegal Logging and Corruption
Laura Furones 135

Editorial Statement

Trócaire, the Irish Catholic Agency for World Development produces the *Trócaire Development Review* as part of its programme of policy research and development education. This programme aims to raise awareness in Ireland and elsewhere of the scale, dimensions and causes of world poverty and to advocate for policies to overcome it.

Trócaire, in producing the *Trócaire Development Review*, draws together policy analysis and research findings with particular relevance to Ireland's evolving role in international development. *Review* articles are on economic, social and political themes related to poverty and injustice in the developing world. A particular focus is the impact on developing countries of aid, trade, financial and other policies adopted by industrialised countries. Ireland's policies in the context of European Union policies are of special interest.

Articles that fall within the remit outlined above are welcome. While analytical, they should not be over-technical in presentation. In general, individual country case studies should only be used to illustrate a general argument. Research findings on pertinent issues would be particularly welcome. All articles are subject to blind peer-review by the Editorial Committee; articles should not exceed 7,000 words. Short notes and comments are also welcome.

The views expressed are those of the authors, and do not necessarily reflect those of the Editorial Committee nor of Trócaire.

Trócaire Development Review is published annually in the spring. Contributions should be submitted by 1 December addressed to:

The Editor, *Trócaire Development Review*,
